- Qué aporta CI/CD?
  - Monitorización
  - Auditoría
  - Gestión del cambio
  - IT Governance

Cómo lo aporta?

- Plataforma Cl "completa"
- Everything as code
- Control de acceso

- Pero ¿qué podemos hacer?
  - Añadir trazabilidad a los artefactos
  - Generar Changelogs (history changes)
  - Loguear despliegues (cuándo, quién, por qué, etc)
  - Instrumentalizar los builds (tiempo, plataforma, equipo, ...)

- Trazabilidad
  - Qué cambio está dónde (dev, sta, pro)
     → Project Management
  - Cuándo un cambio pasó de un estado a otro → Incident Management
  - Responsables → Security Management

- Changelogs
  - Track público (o privado)
  - Orientado a audiencia
  - Versionado
